

Poster Sessions TSC2023

P01 - Wednesday 24

Philosophy	Christopher Lord	The Dimensionality of Awareness	20 Neuroscience	Thomas Wolfers	Mapping inter-individual differences of biological processes underlying categorical research of mental phenomena	Cognition & Psychology	Mauro Cavarra	Approaches of Psychedelic Assisted Therapy: A Systematic Review
	Matthew Watts	A World of Niftiness: From Panpsychism to Pan-niftism		Federico Montecucco	The Neuroevolution of Consciousness: From quantum information to brain EEG synchronization: a systemic model to psychosomatic disorder and self awareness		Darja Kobal Grum	Cognitive control and emotion regulation between conscious and unconscious dimensions: Systematic review
	Steen Loeth	Consciousness, Reincarnation, Evolution and the X-Structure; the Nature of Life and Reality.		Jin Ma	Measuring CNS-Independent Consciousness Among People With the Same Pattern of Thinking		Antonio Prieto	Moving visual stimuli with our mind's eye. Time perception of moving stimuli during perceptual and mental imagery processes.
	Raul Valverde	Can near death studies and artificial intelligence help us to reveal the quantum nature of the mind?		Éva Bajzik	The manifestation of the will and the correlation of health		Pedro Montoro	Exploring unconscious processing under the Bayesian microscope. An integrative experimental approach to examine subliminal visual perception
	Peter Lugten	The Self, Its Brain, and a Solution to the Body-Mind Problem	Physical & Biological Sciences	Gary Blaise	Inter-Spatial Abstraction: Calm Down! It's just an IDEA		Hillool Biswas	The idea of identifying the interface of subjective experience and subjective spiritual experience in the search for consciousness
Culture and Humanities	Wenge Huang	"Non-self" in Buddhism and Cartesian Theatre		Charles Ernst	TRPV1: Conductor of the Orchestrated Dance of Life		Lyubov Yusufova	Towards a Non-Ego-Centered Psychology
	Ruth-Helen Vassilas	Life After STEs: Integrating Spiritually Transformative Experiences into the Material World		Nikita Shklovskiy-Kordi	Natural Computing as a new definition of the phenomenon of Life. The legacy of Efim Liberman	Experiential Approaches	Gwynn Simpson	Using the Spiritual And Metaphysical Techniques to Communicate Across the Veil!
	Kao-Cheng Huang	The Flower of Cosmos in Consciousness		Ami Parashar	Nature's Inspiration to Spiritual Seekers		Marte Roel Lesur	May high level processes drive embodiment illusions?
	Crystal Harrell	Consciousness, spirituality, and health among African American adolescents and emerging adults living in the United States: A scoping review of the literature		Tommaso Gecchelin	Reductionist afterlife scenarios		Andrea Copeland	Conscious Tech in Trauma Healing: Invoking Mystical Experiences and the Phenomenology of Spontaneous Unconditional Love
	Shae Linda Brown	Calibrating consciousness through pattern thinking and understanding: An educational approach to enabling human/world coherence.		Avraham Oren	Reverse engineering the mind mechanism Alephem by quantum mechanics		Malcolm Wright	Are emergent phenomena rare and are we adequately addressing them in mainstream clinical settings?

P02 - Friday 24

Philosophy	Ulf Holmberg	Consciousness, sentiment and stock market returns: Could the GCP data be put to practical use?	Phys & Biol	Sharon Alexander	Biophysical understandings of experiences of ecstatic consciousness commonly reported in the Gospel Church	Cognition & Psychology	Aurora Alegiani	The Only Listening Eyes: Musical Hallucinations provide a new perspective on Dysconnectivity and Precision in Psychosis
	Meghan Carron	On the Constructed Nature of the Metaphysical Boundary Between Mind and Body		Courtney Hunt	The Quantum Mechanics of Fertilization		Mona Letourneau	Verbal v. Nonverbal Ecstasy: Teachers, Actors, and Historic Park Rangers Have Verbal Ecstasies While Others Access Bliss Through Peripheral Spatial Attention and Other Sensory Architecture
	Balaji Raju	A Critical Realist Ontology on The Origins of Neurospirituality		Luis J Camargo-Pérez	Many Worlds - One Mind: Quantum Neural Networks Hypercomputation as an Explanation of Consciousness Driven Wavefunction Collapse.		Wolfgang Fach	Autonomy and bonding as structural determinants of exceptional experiences (ExE) - evidence for dual aspect monism?
	Kala Perkins	The Cornucopia of Consciousness: Ethics of Responsibility to Life		Barry Spivack	The Sociological Implications of Pure Consciousness		Gloria Di Filippo	Adult attachment affects the absorption and the imagery during the first hypnotic experience, not the hypnotic susceptibility
Neuroscience	Edward Porter	How Brains Compute Souls: The computational awareness theory of consciousness	Culture and Humanities	Adrianna Mendrek	Exploring non-ordinary states of consciousness with Authentic Movement: Applications for psychotherapy, creativity, and personal transformation		Arunvel Thangamani	A Hypothesis and a System Model on the Origin of Consciousness in Living Beings
	Paul Hurren	Form as an Extra Ingredient		Steven Ferrara	A new paradigm on death	Experiential Approaches	Milena Braticevic	Consciousness Education applied to Mental Health and Psychological Safety
	Göran Brusewitz	Are emergence of consciousness, telepathy, healing and near-death experiences to be included in a model of consciousness.		Scott Ready	The Lambda /\ Symphony :: a love story of the Earth and his Moon		Margot Wilson	How can we use breath, sound, and bi-handed drawing to investigate cyclical spiral energy?
	Eva Tordera Nuño	Hallucinating Nociplastic Pain		Nida Paracha	Entanglement and the Psychoanalytic Subject		Rodrigo Marchioli	Intellective Saturation of The Evolutive Cosmovision (ISEC): Hypothetical Conditions for the Experience of Cosmoconsciousness
	Diane Gillard	Apparent Motion: fMRI and EEG Evidence for the Where and When of Visual Consciousness Does not Support the Multiple Drafts Model Alteration of Hypnotizability and Consciousness Phenomena following application of Non-Invasive Brain Stimulation (NIBS): State of the Art and Future Perspectives		Olgo Colbert	Comic Strip Anxiety Dreams in Windsor McCay's Dream of the Rarebit Fiend and Little Nemo Series.		Edoardo Fugali	A Husserlian Framework for Embodied Cognitive Science
	Rinaldo Livio Perri	Identification of neurotransmitters involved in nociceptive behaviour of Bombus terrestris: a step towards bee sentience and pain		Mariam Saleh	Spiritual Emergence and the Intersection of Ethics, Policy, and Law		Anand Rangarajan	How Buddhist Mahamudra supports Strawson's thin subject and Zahavi's minimal self
	Elisa Pasquini	Identification of neurotransmitters involved in nociceptive behaviour of Bombus terrestris: a step towards bee sentience and pain		Thomas Klepach	Consciousness from the Biomolecular to the Artificial: An Undergraduate Course in Consciousness and Ethics.		Brentyn Ramm	Verifying Contemplative Experiences with First-Person Experiments: Investigating Pure Awareness Experiences in Phenomenological Interviews
